

PricoaSM Relocation's Intercultural Group
**Welcome to Pricoa Relocation's
 CultureWizardTM!**

You now have access to a Website that takes you on a cultural learning journey—enabling you to learn about working and living in over 115 countries. You can also participate in interactive e-learning that covers culture and much more.

- This inventive program contains a complete cultural e-learning course, comprehensive culturally-based country profiles, a multimedia cultural adjustment course, and other tools specially designed for global organizations.

CultureWizard's Destinations...

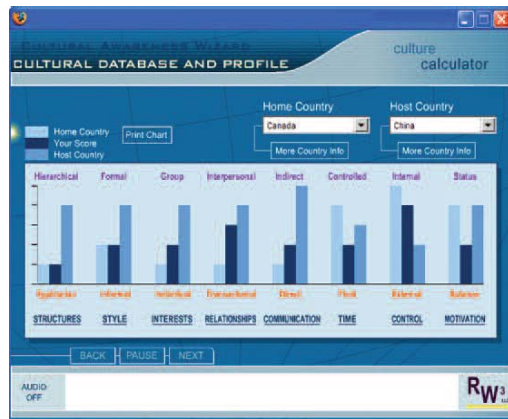

What I Learned Today!

The **Cultural Awareness e-Learning** tool is an interactive cross-cultural program creating an understanding of culture for people who are living and working in diverse environments, including expatriates and their families, business travelers, and global managers.

"Figuring" It Out!

The **Cultural Calculator** allows people to compare and contrast their own personal preferences with home and host country cultural behaviors. The program can also be used for all employees in a global corporation, as it is very effective in supporting traditional diversity initiatives.

- Meet CultureWizard, an e-learning cross-cultural training tool, created by interculturalists with many years of experience, and brought to you by PricoaSM Relocation.
- Leveraging Pricoa Relocation's comprehensive technological capabilities and extensive relationships, this innovative online intercultural training solution provides 24/7 Web-based cross-cultural resources, and builds upon specific blended learning solutions to supplement our classroom-based delivery options.
- CultureWizard is specifically designed for expatriates and their families on international assignments, business travelers, and global teams.
- Targeted to adult-learning styles, CultureWizard provides read-along or voiceover explanation options for all learning modules.

Pricoa Relocation's Intercultural Group

More Than One Side to Every Assignment!
The **Culture Shock e-Learning** interactive multimedia tool explains the stages of adjustment that international assignees and their families experience during both expatriation and repatriation.

A Tale of Two Countries!
Our **Country Profiles** section features culturally-based information on 115 countries, not available anywhere else in print or on the internet. Users can learn how to conduct business, interact socially, and avoid a faux pas in the global arena. Information is also targeted to the expatriates' unique interests (such as schools and medical facilities catering to the international community).

A Myriad of Options!
Our **Blended Learning Solutions** offers a wide variety of options for the corporate client and your assignees, including:

- Customized combination classroom and Web-based training programs to meet your assignees' needs and busy schedules
- Add-on Web-based training packages to supplement any of our cross-cultural programs

Begin Your Journey Now!
Log on to take a quick tour, request a password or a guided demo. We know you will be amazed at this distinctive program.
