

5 WAYS YOUR ORGANIZATION CAN BUILD ON YOUR RETIREMENT PLAN.

Prudential Retirement can help you focus on long-term business goals and better retirement outcomes. Our Defined Contribution Optimization (DCO) service is designed to help you:

1 PUT TALENT FIRST

With DCO, you can offer a retirement plan that enables you to hire and hold onto top employees. You will also better prepare aging workers to retire on time, creating more robust career paths for younger workers.

2 FIND RESOURCES

Discover efficiencies that can help yield cost savings, which in turn can be redeployed to strategic initiatives for your business.

3 INSPIRE BETTER RESULTS

When combined with participant tools, education and automatic features, DCO can help create better employee retirement outcomes. You'll also drive deeper employee commitments to your mission, which could translate into better productivity.

4 KNOW WHERE YOU STAND

Is your retirement program spend as effective as it could be? Find out with our data-driven benchmarking and plan-rating capabilities.

5 LEAD THE WAY

A more efficient plan design delivers smarter administration and compliance, so you can stay ahead of the game.
